NINE KILLED, MANY INJURED BY EXPLOSION

Evidence of Incendiarism Revealed After In- vestigation

NORTH ARLINGTON, N. J., June 10.—John E. Guidetti, county prosecutor's detective investigating the cellufol plant explosion which killed nine persons and injured many others, today announced that preliminary investigation of the disaster had produced evidence of incendiarism, and that two Elizabeth, N.J., men were being sought as material witnesses.

Guidetti said he had learned that Alex Scheinzel, operator of the plant, held on a technical charge of manslaughter, had been warned recently by business friends there would be a "bitter fight" to determine which of them would stay in the business the longest.

NORTH ARLINGTON, N. J., June 10.—Nine persons were known to be dead today and perhaps 75 were injured by terrific explosion which tore a cellufol plant sunder, fired seven houses and blew down a large tree.

Children DEAD
The blast, which occurred last night, are believed to have caused several other deaths. Many of the injured were in a critical condition.

Firemen began a violent search today, fearing more bodies would be found in burned houses or in the Pascale river, where bodies had been thrown.

The heat had brought scores of bathers to the small bathing beach near the plant of the Atlantic Pyro.

FEAR OUTBREAK NEW MINE WAR

HARRISBURG, Ill., June 10.—Facing a major outbreak in the Illinois mine union war which already has brought 10,000 men and Williamson county officers this morning resulted to permit 200 United Mine Workers' men to enter the mine, to run a gauntlet from 1,500 to 2,000 armed miners picketing Peabody mine 43 here.

The action was taken by authorities to handle pickets patrolling the way for a distance of five miles to the mine.

"We never have seen as many men before," said one deputy. "The pickets started out at 3:30 a.m. dropping off men at different strategic points along the road to the mine."

Sheriff Chisler, of Saline county, said the United Mine Workers here permitted to march to the county there would have been wholesale slaughter.

St. Lawrence
Amendment Is
Given Rejection

WASHINGTON, June 10.—The United States Senate today rejected an amendment to the industrial bill giving New York the right of ratification of the St. Lawrence treaty with Canada, all right to power to be developed in the international rapids section of the St. Lawrence river.

The amendment was ordered by President La Follette, Wisconsin, to be published, who read a letter from President Roosevelt saying it had not been considered in committee and was not germane to the bill.

The vote against it was 80 to 20.

TIMBERLAND IS LAID WASTE IN CONFLAGRATION

Thirty-five Houses Burn
Up as Flames Make
Wide Swath

QUEBEC, June 10.—Hundreds of men fought desperately today to stem the spread of a forest fire which has destroyed 35 houses, brought injury to about 40 people and caused thousands of dollars damage, at Cal Alain and Joly, in Lorraine county.

Relief trains carried women and children to safety, while men remained to battle the flames. Breaking out about four o'clock yesterday afternoon, the fire swept through settlers' cottages and destroyed a quantity of railway property. Today it was reported the fire was finally being brought under control.

Attributed to HEAT
Meagre reports filtering through to this city attributed the cause of the fire to the heat and its spread to a strong wind which swept it over several miles of country, at deadly rate.

No details were yet forthcoming as far as the danger to human life was concerned. The three villages of Val Alain, Cal Alain and Joly, all containing, chiefly of settlers' cottages—were all hard stricken.

However, it was estimated 35 cottages had been burned by midnight last night. No fatalities were reported, but about 40 persons were taken to have been injured—most of them only slightly. Settlers turned out in their hundreds to fight the flames.

Ordered DEPORTED
Council for Verigin disclosed that he had been ordered deported but Commissioner Smith, after other members of the board refused to confirm it, refusing to discuss the hearing, held behind closed doors in the commissioner's office. Only eight men attended the hearing. Verigin, the three immigration officials and his two law representatives.

Calmly awaiting the outcome of his appeal to Ottawa, Verigin occupied a little room at the immigration detention hall today, where he was permitted to have two of his followers and to see his counsel. He will be held here at least 48 hours pending the outcome of the appeal.

Officials Will
Not Comment

OTTAWA, June 10.—Immigration department officials declined today to make any statement regarding the detention of W. J. Verigin, Doukhobor leader.

Will the board of inquiry at Verigin makes its report to Ottawa. It is probable department officials will have any statement on the case.

Scientists Guests
At Big Banquet

VANCOUVER, June 10.—Scientific workers were cast aside by delegates to the Pacific Science congress last night when they were guests at a banquet given by the Vancouver professional interests of Vancouver, headed by H. R. Macmillan, president of the board of trade.

Dr. H. M. Torsy, president of the congress, stressed the fundamental brotherhood of scientists and businessmen and expressed regret that the two were working in less co-operation than ever before.

Men and Animals Felled in
Eastern Half of United States

NEW YORK, June 10.—The eastern half of the United States, still basking under heat that had felled men and animals, kept its fingers crossed today and waited.

Picture of eggs done to a turn on sidewalks, and of youngsters sloshing in liquid water broke out on front pages again. Heat records held by the score.

The middle west enjoyed some reprieve after heat that killed more than a score in Illinois, June 10, but 100-degrees heat returned to the southwest yesterday. In the New York area, thunder struck before dawn today sent the mercury cascading down to 60.

Some people who had been told to expect a hot day were disappointed. The mercury fell to 60, and 30 at Philadelphia, and 30 at New York. They were all official figures and in many spots the mercury climbed much higher. In New York, for instance, meteorologists pointed out that the heat wave was not over yet.

Sample temperatures for yesterday: New York, 60; Philadelphia, 60; Washington, 60; Philadelphia, 60; New York, 60.

Edmonton

Providing he meets with no further delays and keeps flying steadily James Mattern, "round-the-world" air flier, may bring his monoplane "Century of Progress," to earth on the Edmonton airfield either Monday or Tuesday.

He will be greeted by a squad of Royal Canadian Mounted Police, as Mayor D. K. Knott is making arrangements to have a squad of scout-cars and a large number of the police to meet him at the airport.

James Bell, airport manager, is in readiness for Mattern at any hour. The field is in good shape. Mattern can take off from Portage Avenue and the machine is too heavily loaded to take off from the turf.

If Mattern decides to go straight through to New York, a hop of about 3,000 miles, his plane will be refueled immediately, it is probable he will make a quick refueling.

MOIST WIND, June 10.—Jimmy Mattern, pressing on with his "round-the-world" flight, was over Khabarovsk, in eastern Siberia, today, at 9:15 a.m. Moscow time (11:15 a.m. E.S.T.).

Khabarovsk is east of China and 125 miles west of Khabarovsk, the flier's next stop.

Communications in that section of Siberia are very bad and the flier was expected to make a stop at Khabarovsk by the time Moscow learned he had passed Khabarovsk.

MOSCOW, June 10.—Flying the last stretch of his voyage over Russia, the flier was expected to make a stop at Khabarovsk by the time Moscow learned he had passed Khabarovsk.

BENITO GIVEN INVITATION TO VISIT CANADA

200 Executives of Montreal Federation Dispatch Cablegram

MONTREAL, June 10.—A thunder of applause, a brown-shirted Fascist-looking gathering of about 200 men and women executives of the Federation of Quebec Labor Clubs last night dispatched a cable to Premier Benito Mussolini of Italy expressing sympathy with the Fascist movement, and a 1000-word letter inviting Premier Mussolini to come to Canada on July 1.

Reading of the cable expressing sympathy with the Fascist movement was given by the Premier, Mussolini, at the time of the meeting. The cable was signed by the 200 executives of the Federation of Quebec Labor Clubs, and was addressed to the Italian dictator. The cable expressed sympathy with the Fascist movement, and invited Mussolini to visit Canada on July 1.

The majority of men attending were dressed in brown shirts and trousers, and some wore black shirts and trousers. The gathering was held at the Hotel Windsor, and was presided over by the Premier, Mussolini.

General statement of the Federation's aims were given by the Premier, Mussolini, and the secretary, J. A. Chabot. The Federation is based on the principles of Benito Mussolini, and aims to establish a Fascist state in Canada.

Health and Diet. This food tastes best if kept cold in a covered dish. Altering the food to melt in the heat spoils its looks and helps turn it rancid. Cheese: These eggs pay good. By taking proper care of your food, you can keep it fresh and healthy. By allowing it to dry out it becomes hard and leathery. Keep cheese in a dry paper or wrapped in a clean cloth.

International Spy System Working Overtime

ALL EUROPE IS FEVERISH WITH SNOOPER ACTS

Pre-war Period Never Knew Such Intense Espionage as Now

By WILLIAM HILMAN Special to The Edmonton Bulletin

PABIS June 10.—Europe is in a feverish with spy activity. Hardly a week goes by which fails to bring news of some—or alleged—snooping—arrested somewhere.

The pre-war period never knew such intense espionage. Or perhaps the spies were better equipped for their work and weren't caught so quickly.

Take some of the recent reports from the European newspapers. Three men said to have been engaged in espionage in behalf of Germany, were executed at Gdansk, Poland.

A man arrested at Clermont Ferrand is alleged to have confessed that he belonged to the British intelligence service.

Lieut. Baillie-Stewart, the "Man of the Tower," cashiered and sentenced to five years imprisonment for allegedly selling military secrets to "Marie Louise," a modern and mysterious Mata Hari.

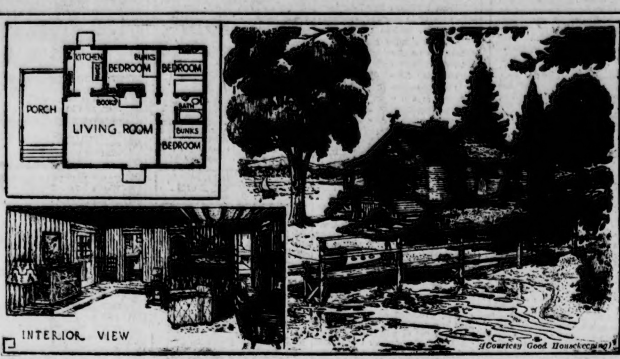

A 25-year-old Hungarian beauty arrested as a spy in Tunis. Five arrested in Vienna for smuggling military information into Czechoslovakia.

Two Italian masses arrested at Rome in charge of conveying military information across the frontier. One of the masses revealed the espionage and counter-espionage activities in Europe in which his nation is involved in trying to find out the secrets of every other nation, even nations outwardly friendly to each other. The budgets of European governments are now overloaded with heavy expenditures for armaments, counter-espionage, and provisions for funds to be used for "intelligence" work.

Britain's wartime premier, David Lloyd George, once told me that espionage was unimportant in the game of rivalry that exists between nations today. Before the war broke out, Lloyd George said, Britain knew every bit of equipment Germany had and Germany knew every item of armaments Britain possessed.

Small Summer Cottage Accommodates Six

Three Bedrooms in Plan, Each Containing Two Bunks

INTERIOR VIEW

UPPER LEFT, PLAN OF INTERIOR; BELOW, LIVING ROOM; RIGHT, EXTERIOR OF COTTAGE.

Although this cottage is compact and inexpensive in cost, it is planned to accommodate six people, and represents a study in comfort, and attractiveness. Log siding, rather than real logs, is used for its construction, although the plan is adaptable to both. The cost of materials, not including special pumps, generators, or heating equipment, would probably vary from \$500 to \$1,200, depending on the location, availability of materials and so forth. This is dependent on the type of building it is built by a contractor, the cost would be approximately double this amount. It contains 12,000 cubic feet of a cubic foot of logs, and is built for 20 cents per cubic foot. The proposed construction is of the same stock log or slab siding for framing as is used for exterior finish. First, vertical slab siding placed first, the outside walls being held in place by bracing while building. The surface is then covered with building paper or insulating material, followed by exterior slab siding placed horizontally. This provides a much more weather-tight wall than the usual construction, as well as a more pleasing interior finish. The interior is built of two-by-four frame construction sheathed on the outside with stock log siding, and on the inside with stock pine paneling. It is thoroughly insulated against heat and cold and may be adequately heated by the use of oil stoves to supplement the fireplace in cold weather.

The interior plan, with living room, kitchen, three bedrooms each containing two bunks, and bathroom, is shown at the upper left of the picture. Below is the very attractive living room which is large and contains a fireplace for cool summer nights, and a porch for outdoor living. The exterior of the cottage, with its pleasant surroundings, is pictured at the right. Frederic Morse, Guelph, is the architect.

WORKERS PLAN JULY PARLEY AT WINNIPEG

Clergy and Young People Leaders Will Hold Conference

WINNIPEG, June 10.—A summer conference for the clergy, Sunday school teachers, officers and leaders in young people's work in the diocese of Rupert's Land will be held in St. John's college, Winnipeg, from Monday, July 3, to Friday, July 7, under the patronage of the Board of Religious Education.

Young People's conference will be held at the same time and place. All those attending the conference will be accommodated in St. John's college, where the students' quarters will be placed at the disposal of the delegates.

A program setting out the purposes of the conference and giving details of each day's session has been published and distributed and it is expected that a large attendance of clergy and others will come to Winnipeg from the rural parishes of the diocese for the occasion. There has not been a conference of this kind in the diocese of Rupert's Land for a number of years. It is held under the patronage of His Grace Archbishop Stricker, and with Rev. G. A. Wells, warden of the diocese, acting as dean of the conference.

Monday, July 3, the opening of the conference, will take the form of a church service in the college chapel at 8 p.m., with an address by the archbishop. Each day the delegates may attend holy communion at 7:30 a.m., and a service of Bible study will be conducted by Rev. Canon Herkules from 9:15 to 10:15 a.m. daily.

Tuesday morning there will be a session on mission study led by Dr. T. R. Westgate, followed by a session on the subject of the Oxford Group movement led by Rev. W. Askey, Ven. Archdeacon Parker will also address a clergy conference on "The Church and the Oxford Group Movement."

Wednesday morning a swing prayer service will be held, addressed by Miss I. McElhannon and Dr. T. R. Westgate. A clergy conference will be addressed by R. H. Askey. Wednesday afternoon all delegates will be held in the cathedral for the service of the Church of St. Andrew's on the 10th.

"The Responsibility of a Young People's Group to the Church" will be the subject of the evening of H. H. Bancroft, organizer of St. Mary's church, will give an address on "Made in His Relationship to the Service of the Church." This will be held in the cathedral on Friday, the final day of the conference, the delegates will hear an address on the subject of the Oxford Group movement led by Rev. W. Askey, Ven. BENNETT EVADES PRESS INTERVIEW

LONDON, June 10.—Prime Minister R. B. Bennett and Hon. E. N. Rhodes, Canadian finance minister, arrived here Friday for the world economic conference which opens Monday. They were met at Euston station by Dominion Secretary J. H. Thomas, Hon. G. Howard Ferguson, Canadian high commissioner to the United Kingdom, and several other officials.

Mr. Bennett declined press interviews, saying merely, "Peace, security and prosperity. That's the formula, isn't it?"

He and Mr. Rhodes disembarked from the train by way of a baggage car when the door of their coach was unable to open. The welcoming committee, however, was not hurried down the platform to greet them.

AFRICA SPEAKS AND HOW WITH COMEDY PAIR

Wheeler and Woolsey At Rialto On Double Feature Bill

Next Wheeler takes his crack at the big screen with the comedy pair in the most talked-of production of Hollywood in late months, "Hell Below," the super-production which starts a week's engagement today at the Capitol Theatre. Coming direct from its triumph as a \$200 road show, "Hell Below" is being shown in Edmonton at usual prices, and Durant fans see their favorite in an entirely new role.

"So This Is Africa" takes its cue from the numerous jungle thrillers that have hit the country's screens in recent months and proceeds to show what happens when a pair of intrepid explorers like Wheeler and Woolsey try to shed a little light on the dark continent. Their safari consists of a beautiful blonde, a pack horse for Bob Woolsey's special edition of the Encyclopedia Britannica, a St. Bernard dog and a repeating rifle that repeats three times and dies.

If Africa never was quite as wild as it has been pictured, it certainly goes wild when the comic caravans decide to disrupt the peace and quiet of its jungle.

The program in another Rialto double feature with "State Trooper," the other half of the show. Have you ever seen a man put to death in the electric chair at one of the state penitentiaries? You can be electrocuted by coming in contact with a defective high-voltage switch in one of the starring high-spots of the Columbia picture, "State Trooper," a story of destruction and battle in a fireline.

The leading roles in "State Trooper" are carried by Regis Toomey and Evelyn Knapp while other members of the cast are listed as Edwin Maxwell, Lew Kelly, Barbara Weeks, Walter Riegall, Raymond Hatton and Don Chapman.

Olson And Watson Hearing June 16
CAMROSE, June 10.—Preliminary hearing of Harold Olson and James Watson, charged with robbing a general store at Ravel, was set for Friday, June 16, according to RCMP. Constable Murray, of Camrose. The two men were arrested in an Edmonton rooming house.

The One and Only

Jimmy "Snoozle" Durante is shown below. Durant appears with Robert Montgomery and an all-star supporting cast with over a thousand extras in the most talked-of production of Hollywood in late months, "Hell Below," the super-production which starts a week's engagement today at the Capitol Theatre. Coming direct from its triumph as a \$200 road show, "Hell Below" is being shown in Edmonton at usual prices, and Durant fans see their favorite in an entirely new role.

Thrill And Chill Film At Strand

Director Michael Curtiz added to the effectiveness of the Warner Bros. Technicolor thriller, "The Mystery of the Wax Museum," which is now showing at the Strand Theatre, by having living persons pose as wax figures and alternately being electrocuted.

1933 WILL BE FAMED FOR ONE PICTURE!

THE THRILL PICTURE OF ALL TIME!
Months in secret production, thousands in the cost, the thrills, laughs, dangers of submarine warfare dramatized, a love story without equal.

ROBERT MONTGOMERY WALTER HUSTON
MADGE EVANS JIMMY DURANTE EUGENE PELLETTI

CAPITOL Starts TODAY

"SUB" DRAMA OPENS TODAY WITH CAPITOL

Bob Montgomery, Madge Evans, Jim Durante Star "Hell Below"

"Hell Below," the sensational submarine adventure film, which caused widespread comment during its long run showing at the Astor Theatre in New York City, comes to the Capitol Theatre at last, giving local film-goers a chance to view what is said to be the most thrilling marine spectacle ever shown on the big screen.

It opens today and will be shown for six days. Robert Montgomery heads the cast of "Hell Below" and he is in the critics' column as the outstanding role of his career. As the Bob Montgomery young man, he is at least in love with a woman already married, in a series of sequences in which he discovers the orders of a submarine commander in an effort to have his friend admit to the fact that he is a spy.

The "Mystery of the Wax Museum" is a startling picture of alternate chills, thrills and horror, which Lionel Atwill and Glenda Farrell play the leads. It is taken from the play by Charles S. Belden and adapted for the screen by Don Mullally and Carl Erickson.

It carries an all-star cast which includes Lionel Atwill, Fay Wray, Glenda Farrell and Frank McHugh.

After May 15 stock owners who pure-bred cattle have been ordered to be slaughtered under the T.B. regulations are required to produce certificates of registration at the time of the commencement of the test.

One of the accomplishments of the technical crew which worked on "Hell Below" was the acting recording of sound. Jim Durante under water. This was made possible through the practical application of the newly-developed apparatus designed to pick up the most delicate undersea vibrations, and to capture such sound as the turning of propellers and the passage of torpedoes through the water.

Dreamland Offers Eddie Cantor Now

Eddie Cantor, in "The Kid from Spain," at the Dreamland Theatre. It is Samuel Goldwyn's annual presentation of Cantor song-and-dance, following last year's "Palm Days" and "Whoopee" the year before. In "The Kid from Spain," Eddie Cantor, neither bravely nor foolishly, to show his skill and grace as a matador. Escapes from the police who are pursuing him, about to put him on the spot, the adoring eyes of the elongated blonde sex, menace, and solving his roommate's difficult love affairs are all among the reasons that bolt Eddie into the arena in the thrilling, colorful climax to the story. It is a role in which the weak-kneed, docile, hapless, heady-eyed Eddie is funny in a Chaplin-esque magnificence.

Nordeg Autos Are Marooned

ROCKY MOUNTAIN HOUSE, June 10.—Automobile owners of Nordeg are wondering if they will be able to get their cars out this summer. To date, only a few miles of road around town are passable, although there have been promises of a road out to Rocky Mountain House for years. At present, there is only about a mile and a half of road to finish before it will be possible to travel, though the road will only be a rough trail.

There are two relief camps east of Nordeg and one west, working on the road that some day is expected to join the Banff-Jasper, Big Bend scenic highway.

Relief camps between Nordeg and Rocky have no means to help with the grading and the going is very slow, being all pick and shovel work. It looks as though the residents of Nordeg will have to ship their cars out by train as usual, if they want them for anything but local travel.

Extortionist Is Given Year In Jail

CALGARY, June 10.—Julius, also convicted of demanding \$5,000 from the Canadian Pacific Railway station agent here by means of late yesterday was sentenced to one year in Letbridge jail.

The station agent received a letter threatening damage to the railway line unless he paid \$5,000 at a designated spot on the Calgary-Lethbridge line. Investigation was instituted when the letter was received and after arrest, Julius signed a confession.

Hollywood Holiday

Dan Thomas Gives Closures of Wampus Ball And Golf Tourney at Agua Caliente

BY DAN THOMAS
AGUA CALIENTE, Mexico, June 10.—Translated into English, Agua Caliente means "hot water." And no place was more correctly named. What a lot of hot water one can get into, particularly with a Wampus ball in progress. And I'm not thinking of the natural hot springs which abound around here, either.

Exactly for the lack of cameras, lights, reflectors and other paraphernalia, this resort might be in absolute perfect position for a huge Spanish movie set. Hollywood is in absolute perfection. Actors and actresses, including the lady stars, a few directors and executive and a host of Wampus members are coming everywhere. All here for the Wampus ball and golf tournament.

A table near the long bar, situated at one end of the enormous casino, put me to the best spot from which to check up on those arriving. It is the second place everyone goes. First they go to their rooms and wash off the top layer of dirt collected on the long drive. Then to the bar for a refreshing drink.

Study, in pairs and in groups they drifted by—Colleen Moore and husband, Al. Scott, Jack Mumball, Adrienne Ames, Bruce Cabot, Ginger Rogers, Robert Armstrong, Joan Crawford, Carol Lombard, Bill Powell, Sam Rock and daughter, Ann, Claudette Colbert, Norman Foster, George Raft, Clark Gable and the missus, Mervyn Le Roy and many others.

The whole affair was a huge success—except the golf tournament which was scheduled for the morning after the ball. Considerable rain on the part of John Mims finally resulted in four players testing off shortly before noon. All others still were sleeping or studying into the luncheon patio for breakfast.

After that they were content to sun themselves around the swimming pool, some going in the water. Seen and heard in the dining room, the ball, Lillian Bond, leaving her brother, ... and leaving him for a dance with your lovely, ... and does she dance plenty of coaxing needed to get others still were sleeping or studying into the luncheon patio for breakfast.

George Arliss At Princess Monday

In his recent career, George Arliss has been a captain of industry, a world famous banker, a gifted musician, a secretary of the treasury, an East Indian potentate and a prime minister.

His great triumph has been as a prime minister. Now he has moved up a peg in the cinematic scale. He is a king in his latest Warner Bros. picture, "The King's Vacation," the story of a royal holiday in a palace in the mountains.

In fact, it is a story giving up the story of "The King's Vacation" is written in a light humorous vein by Ernest Pascal, with the comedy spirit with delightful results.

Among the players in support of Mr. Arliss are Duke Powell, Pat O'Brien, and others.

Snow Is Too Deep For Trail Journey

ROCKY MOUNTAIN HOUSE, June 10.—Mrs. Jackson, going to work for the government at Banff, Alta., started across country from Nordeg last week, trying by saddle and pack train, going in a party of four, to make it under 125 miles, but the snow in the foothills was far too deep to permit travelling and he was forced back. It will be weeks before that route is passable.

With Mrs. Jackson, he left on Thursday by train, via Red Deer and Edmonton, making the journey by that route one of almost 400 miles.

ANGLICANS IN CONFERENCE AT NORTH POINT

Fairview Is Scene of Activity As 50 Delegates Convene

FAIRVIEW, Alta., June 10.—The Women's Auxiliary of the Anglican Diocese of Athabasca commenced its thirteenth annual meeting at Fairview on Wednesday with 50 delegates from 15 branches attending the convention.

The Right Reverend A. N. Sovereign, D.D., Bishop of Athabasca, called a clergy conference to be held at the same time, and eleven of the clergy attended.

The opening service for the double conference was held in St. Helena Church, Fairview, with Holy Communion service at 9:30 Wednesday morning. Lunch was served on both days to the visiting delegates by the Women's Auxiliary of St. Helena in Oddfellows Hall, and the splendid arrangements in this connection was much appreciated by the visitors.

Two presentations were made at the conclusion of Wednesday's programme. The first was to the Ven. Archdeacon R. Little, D.D., the clergy presenting him with a travelling case as a slight expression of appreciation of his successful labors as commissary of the Diocese for the past three years.

The second presentation was a beautiful Sheffield plate tea tray to Reverend Canon and Mrs. W. G. Yule of High Prairie on their retirement after forty years of splendid service in the pioneer work of the Diocese. From the Bishop, clergy and friends of the Diocese Mrs. W. G. Yule received a lovely bouquet of flowers from the Women's Local Auxiliary.

On Wednesday evening a public meeting was held in Oddfellows Hall when Bishop Sovereign gave a most interesting lecture on the Yukon, setting forth the arduous labors of church pioneer in that far-northern latitude in its humorous and tragic episodes, and giving reminiscences of the great rush of ninety-eight with its tragedies. He also explained that his first St. John trail is the Old Yukon Trail.

The Reverend William Brant, Dean, introduced Reverend Canon White who held the interest of the gathering in recounting the work of the church in the Diocese of Athabasca forty years ago, his experiences in the good old days.

Thursday morning at 7:30 a prayer meeting was held for clergy; at 10 a.m. Bishop Sovereign held an ordination service when Reverend R. F. Pierce, B.A., was ordained priest and A. F. Ledner, B.A., ordained deacon. At the conclusion of the Bishop Sovereign discussed matters of importance to the Diocese and announced the following appointments:

Archdeacon R. Little will also act as Rural Dean of Athabasca. Rev. Wm. Brant of Fairview as Rural Dean of Peace River Diocese. Rev. Eric Jackson, B.A., Rural Dean of Grande Prairie Diocese. Rev. W. E. Harrison of Peace River appointed Hon. Canon of the Diocese of Athabasca.

At the meeting of the Women's Auxiliary, work of the past year was reviewed was encouraging and the following officers were elected for the ensuing year: President, Mrs. R. Little; treasurer, Mrs. W. J. MacArthur; secretary, Mrs. W. J. Low.

Jesus on the Cross

Scripture—Mark 15:47.

By the Rev. Alvin E. Bell and Alfred J. Baecher

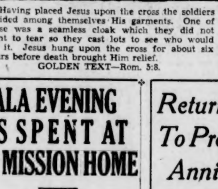

Pontius Pilate, the Roman governor, made at least eight definite attempts to release Jesus, publicly before him all guilt, shifting judgment to Herod, and offering Jesus as the One to receive crucifixion at Passover instead of Barabbas, a bandit.

Attempting to satisfy the mob demanding Jesus' crucifixion, Pilate had Jesus scourged. Telling him to die, he shifted judgment to the soldiers who mocked him with thorns and mocked him shamefully.

Having placed Jesus upon the cross the soldiers divided among themselves His garments. One of these was a seamless cloak which they did not wish to tear so they cast lots to see who would get it. Jesus hung upon the cross for about six hours before they brought him relief.

Darkness settled over the earth the last three hours Jesus hung upon the cross, terrifying those who had gathered about to mock him. The effect of the cross is seen in the conversion of the penitent thief, the testimony of the Roman centurion, "Truly this man was the Son of God."

CROP REPORTS THROUGH WEST ARE PROMISING

Three Prairie Provinces Report Excellent Growing Weather

WINNIPEG, June 10.—With the latest of the season overcast to a great deal by adequate moisture and ideal growing conditions, crop reports from the Prairie Provinces, especially those from within the last three weeks, are full of promise. This is the prediction made by the Canadian Pacific Railway's department of agriculture in the week's crop report received today.

Wheat varies from covering the ground to a growth of 10 and 12 inches in some places. Summer-fallowing is under way on many western farms. Fall rice has made rapid advance and heads are beginning to form on straw 15 to 20 inches in height.

Seeding operations are now confined to finishing up a small percentage of oats, barley, flax and soybeans sown in the spring. As much cultivation as possible before seeding in order to catch the weed growth.

Hay meadows and pasture lands are giving cattle splendid food with good results.

Poisoning activities are in full swing to retard grasshopper hatching reported extensive in southern parts of the three provinces.

Slight damage to crops is apparent in scattered districts.

Canadian National Report Encouraging

WINNIPEG, Man., June 10.—All most without exception the crop prospects have been ideal throughout western Canada during the past week. What is showing above ground right to ten inches, seeding of later and coarse grains is practically completed, pastures are in fine condition, and there is no damage from any source is noted. According to the weekly crop report of the department of agriculture, Canadian National railway.

All conditions in the northern division report excellent wheat growth and the hay crop gives excellent promise with no damage from any source. Central and southern Manitoba have experienced heavy rains and all grains and pastures are doing well.

SKATCHEWAN CROPS

In the Westburn, Radville, Central Butte and St. Angelo subdivisions of Saskatchewan, weather during the past week has been mainly warm with showers. All grains with the exception of some late oats and flax are now seeded and wheat is showing from eight to sixteen inches of growth. Pastures are in good shape and livestock are doing well.

In central Saskatchewan and districts to the north, weather has been ideal for growing crops.

DEPOSED HEAD KNOX COLLEGE NOW ON TRIAL

Case Goes to Group for Settlement After Two Days' Debate

By J. P. SANDERSON
Canadian Press Staff Writer

PETERBORO, Ont., June 10.—The fate of Fred Thomas Eakin, deposed principal of Knox College, Toronto, last night was in the hands of a jury. Selecting a middle course, after two days of arduous debate, the Presbyterian General Assembly today appointed a committee to review the whole contentious subject of Knox College administration, including the primary question of the reinstatement of the tall, grey-haired divine, who was deposed from the principality last year.

Between noon and Monday, the committee of 12—seven ministers and five elders—will review the case for and against the deposed seminary head, reporting to the assembly Monday afternoon.

Members of the committee include Rev. W. G. Brown, Saskatoon, and A. G. Farrell, Regina.

At a side issue, the Assembly referred to the various Presbyterian new administrative set-up for Knox College, Rev. J. S. Shortt, Barrie, reporting for a committee, established last year, recommended the college board of management be reduced from 38 to 25 members.

In addition, the college senate, would be composed of the faculty and 10 members of the board. Power would be given the management board to investigate complaints against the faculty laid by students, chairman for the past two years, presided.

The new executive, elected yesterday, will be H. A. George, Peace River, chairman; L. C. Howard, Semathit, vice-chairman; C. W. Clement, Peace River, secretary; treasurer, Power Coupe was decided upon as the seat of the next convention, in June 1934.

SOME IMPROVEMENTS

In annual address, Chairman Albright sketched accomplishments of the associated boards and stressed the need for a coast highway.

"Conceded action, supported by the general council," he said, "has brought about some improvement in local mail service. The long coast highway, which has not been built and it may be well to consider a coast highway."

"This idea is looming up as of increasing importance. Half a loaf is better than no bread, and a long highway through the Peace would be of immense value to us and strongly appeal to tourists. We need a road in the coast and now is the time to build it. The coast is cheap and men need work."

In discussion of unemployment and relief, Hugh W. Allen, M.L.A., was called upon. He explained the provincial government's system of handling relief and expressed the opinion that he could not, at this time, say any way out of the situation, or, at least, until such time as farm produce prices reached a level which would permit hiring of farm labor.

RESOLUTIONS ADOPTED

Resolutions adopted at Thursday's meeting were as follows:

That federal and provincial governments be urged to reduce interest rates on outstanding national and provincial indebtedness by means of conversion loans or otherwise.

That governments be urged to investigate routes and estimate cost of providing a truck highway through the Battle River area to the Mackenzie river and Great Bear Lake.

That the provincial government be commended for adoption of the new policy of proportional income tax and that its permanent adoption be urged.

That the Northern Alberta Railways be asked to investigate the possibility of giving daily service by gas electric car service for passenger, mail, express and baggage services.

That opposition be registered to continuance of the present system of direct relief payment, and the request made that present relief organizations be utilized as far as possible only for work performed on public works or farm development.

COAST OUTLET WANTED

That the associated boards reaffirm their position as favoring a direct coast outlet and, pending the time of such an outlet being constructed, the federal government be asked to grant relief to farmers of subvention on all grain rates, placing them on the same freight basis as Edmonton, were listed among requests which will be forwarded to the federal government as resolutions passed at Thursday's session of the annual convention of the Associated Peace River Boards of Trade.

The convention opened Thursday at 1:15 p.m. and the session sat until late in the evening, W. D. Albright.

1. SHOULD YOUNG PEOPLE BE COMPELLED TO STUDY THINGS THEY FIND DISTASTEFUL?

YES OR NO

AUTHOR'S NOTE: These answers are given from the scientific point of view. Not all moral questions can be answered with absolute scientific accuracy, but no decision as to what is morally right is possible without science. Science puts the rights of organized society above the rights of individuals.

1.—Within the limits of common sense, no. The old theory was that compelling people to do things they disliked improved their will power and, strengthened their general character. But it has been found that people will master more things and more harder things if you can get them to take things they like. Advertisers are rapidly giving up the whole notion of education as a disservice of education and providing tasks that give the thrill of success. Struggling against hardship is often necessary in life but it does not give half the pleasure of success. Struggling against hardship is often necessary in life but it does not give half the pleasure of success.

2.—No. The scientific knowledge has practically no influence upon the strength of the average person's beliefs. He draws nothing so much as changing his mind.

3.—No. Galworthy, in his last novel a profound book of social philosophy—has the heroine say, "I suppose women act more instinctively and are more ready to trust their intuitive sense of general experience." This is so much bull, as far as science is concerned. Yet I like to read novels that I know are wrong from a scientific standpoint because I like to forget science at times and just imagine what ideal human nature might be and do, and also because novelists are usually right, and gloriously right, in picturing what human beings actually do. They only get into hot water when they try to analyze psychological causes and mental operations.

DEMPESEY BUSY FOR CROWDING OF BAER WIN

Old Mauler Keeps Max Under Watchful Eye Until Final Bout

By EDWARD J. NEIL

Associated Press sports writer
NEW YORK, June 10.—(AP)—Max Baer, the prizefighter, was perched in the driver's seat, as complete a monarch of Italiana for the time being as Tex Rickard ever was. Jack Dempsey, his opponent, was in the driver's seat, as complete a monarch of Italiana for the time being as Tex Rickard ever was. Jack Dempsey, his opponent, was in the driver's seat, as complete a monarch of Italiana for the time being as Tex Rickard ever was.

With but one major promotional venture behind him, and that both an artistic and financial success, Dempsey immediately planned a triumphal tour for the giant destroyer from California, set to work on a match between him and either Jack Shavers or Primo Carnera here in the fall, and rolled over in his mind additional bouts in Miami Beach, Fla., in February, and California next year.

IN DEMPESEY'S KEEPING

Reactions from Baer's amazing conquest of the former heavyweight champion, in nine and a fraction rounds in the Yankee Stadium, Thursday night, were in on both Dempsey and his prizefighter. The big curly head, who had over in his mind additional bouts in Miami Beach, Fla., in February, and California next year.

"He's my pal," he grinned as he stepped out of the ring. "I'm a Knight, musical comedy star, about four years ago, and I've been fighting for Jack any time, anywhere. He's had to say so."

WANTS ANOTHER CHAMP

Max Baer, the prizefighter, was perched in the driver's seat, as complete a monarch of Italiana for the time being as Tex Rickard ever was. Jack Dempsey, his opponent, was in the driver's seat, as complete a monarch of Italiana for the time being as Tex Rickard ever was.

Oh my, the long hours I have spent! I guess I still would be there if you didn't let a fire start. You girls both realize, no doubt just what it was that drove me out. I would have been burned up if you had not been there to help me. Then Goldy said, "What can we do?" Of course we were glad to be with you, but what if Mr. Greenleaf? He'll be raving mad.

"An eagle brought us here and we have been as busy as could be. The plants made us work all day long on red base we had."

Well, girls, I came to rescue you. You see the eagle brought me. But we are waiting time, now. Very quiet we must keep.

"I'll look around, Gee. I would love to find a place to make out of. At present we are safe because the giant's sound asleep."

"Come on," said Duncy, "we will try to get the big door open. Get on me this is a bark."

And then he pulled hard on the door. It opened wide. "Now, what's in store?" said Duncy, as they climbed down to a place that was real dark.

"Duncy and the girls find themselves in a tunnel in the next story!"

Average yields per acre of marketable tobacco in pounds in Canada in 1932 are estimated as follows: Ontario 1614; Quebec 90; British Columbia 74.

April report of mine from the Arizona was 12,120,000 bushels compared with 30,960,649 in April last year.

ENTHUSIASM LACKING ON WALL STREET

By Victor E. Burke

Associated Press Financial Writer
NEW YORK, June 10.—The stock market shuffled through its usual routine today without any great amount of enthusiasm. Profiting further from some categories tended to be balanced by other gains in others and the close was moderately irregular. Trading volume followed with Kansas City, St. Louis and Chicago. A satisfactory freight car loading and optimistic impression of U.S. Steel's backing figures were generally content to improve, while drifted irregularly lower. The dollar was weakened in foreign exchange markets.

Monday IT PAYS TO SHOP AT EATON'S Monday

SPECIALS! Store Opens at 8:30 a.m., Closes at 5:30 p.m. Daily — Except Wednesday, 8:30 a.m. to 1:00 p.m. — To Call EATON'S, Dial 9-1-2-0. **SPECIALS!**

Second Day of the Sale of Men's Shirts, Ties and Underwear

June Sale of Men's White Shirts Swings Into Its Second Day

Still offering a complete size range and sleeve range in cool, white broadcloth shirts in collar-attached style, with single pocket and barrel cuffs. Bought by EATON'S Stores, on an order that called for many thousands — thus bringing the cost down to the minimum. They're mighty fine shirts at a mighty low pricing. MONDAY, SALE PRICE, 2 for \$2.95

Balbriggan Combinations

A value that invites the purchase of a Summer's supply of this cool absorbent cotton underwear for men. Properly proportioned, well finished. Short legs, short sleeves or sleeveless styles. Sizes 36 to 46. SPECIAL.

Women's Chiffon Stockings in Smaller Sizes

A Sale Event Planned for Girls and for Smaller Women

You who ask for stockings in sizes 8½ and 9 — this is YOUR Sale! Here are full fashioned stockings from higher priced lines — only a few standards in the grouping, and the rest of unclouded, perfect quality. Gauzy chiffons, and the service sheers that Monday's price makes practical for day-in, day-out wear. The service sheers are reinforced with lace. Shades in a wide, fashionable selection. MONDAY, SPECIAL.

Service Silk Hose in the "Small Size" Event

Another Value Extra for Early Shoppers

Every girl and woman who wears a size 8½ or a 9 is going to want to share this event. Stockings of that heavy service silk texture — full fashioned — in the season's best shades. A factory clearance which means that some "value" were included, but most are perfect quality. The garbier hem tops and the points of wear in the feet are reinforced with lace. Early shopping is the thing! MONDAY, SPECIAL.

Men's Cotton Socks

For Everyday Summer Wear

For day-in, day-out comfort, too, we must add. This fine cotton is just about the coolest sock we know, and its smooth and soft as well. A lucky purchase, in generous quantity, did the trick. We've seldom seen such socks at less than 10c. Durability plus the firmly knit yarns are doubled in the toes and heels. Choose from several shades, in favens, grey, and the ever-popular black, all in plain effects. Sizes 10 to 11½.

MONDAY SPECIAL, PAIR.

Clearaway! Oddments and Reduced-Price Lines

Women's Lingerie and House Frocks, and Children's Things!

All through counter after counter after counter of goods we're going, assembling the odd pieces, and the slightly soiled lines — the "left overs." All are grouped together for an early clearaway — reductions where taken are generous.

WOMEN'S WEAR

Lingerie galore, in rayon, velveteen, and even crepe de chine. Cotton garments, too, and print house frocks.

50c to \$1.95

Girls' Voile Frocks

Shop Promptly at 8:30!

Such gay, flattery frocks — they'll go skipping to garden parties and beach beaches all summer long! The voiles are strewn with tiny blossoms, polka dots, or vivid modernistic effects. Very young! Very inexpensive for such good quality! Sizes for 7 to 14 years.

9:30 SPECIAL. EACH. **\$1.00**

—Dresses, Second Floor

FOR CHILDREN

Play tops of all descriptions, rompers, babies' wear, little sweaters, a bathing suit or so — all sorts of things.
